Frameworks & CMS: Bootstrap, Tailwind CSS, WordPress, TYPO3

Backend & Database: Node.js, Express.js, MongoDB, MySQL, PHP, REST API Integration

Development Tools: Git, GitHub, Visual Studio Code, Figma, Adobe XD, Photoshop, Lighthouse

Professional Experience

Frontend Developer

Satvam Softwares Private Limited

Bengaluru, Karnataka

August 2021 – Present

- Built and deployed 20+ responsive web applications using HTML5, CSS3, JavaScript, jQuery, and WordPress, ensuring cross-browser compatibility and mobile-first design principles across all projects
- Created dynamic user interfaces with custom JavaScript components, AJAX-powered features, and API integrations, resulting in enhanced user engagement and seamless real-time data synchronization
- Collaborated with design teams to transform Figma and Adobe XD wireframes into pixel-perfect, production-ready interfaces while maintaining design consistency and accessibility standards
- Integrated OnOffice REST APIs to enable dynamic real estate listings, advanced filtering, and efficient data management.
- Optimized website performance and SEO strategies, achieving 60% improvement in organic search rankings through technical optimizations, code refactoring, and implementation of web performance best practices
- Constructed custom WordPress themes and TYPO3 solutions with Advanced Custom Fields, delivering flexible content management systems tailored to client-specific business requirements

Projects

ShopMart - Full-Stack E-commerce Application — React.js, Node.js, MongoDB, Tailwind CSS

- Engineered a complete e-commerce platform using React.js with Context API for state management, demonstrating proficiency in component-based architecture and modern React patterns
- Developed product filtering, dynamic shopping cart with real-time calculations, pagination, and responsive UI using Tailwind CSS.
- Implemented JWT authentication, session handling, and MongoDB database operations using Node.js and Express.js.

Bonafinca - Real Estate Platform — TYPO3, JavaScript, REST API, Multilingual

- Produced comprehensive real estate listing platform with OnOffice API integration for real-time property data synchronization and advanced search functionality
- Developed custom filtering system with multi-parameter search, property comparison features, dynamic result rendering, and multilingual support for international market reach

Proventis Corporate Website — WordPress, jQuery, Multilingual

- Delivered custom WordPress theme from scratch with mobile-first responsive design, achieving 90+ Google PageSpeed scores through optimization techniques including lazy loading and asset minification
- Integrated Advanced Custom Fields for flexible content management and implemented custom post types for scalable content architecture, enabling clients to easily manage dynamic content

Certifications

Meta Frontend Developer Professional Certificate

Meta - Coursera

Completed comprehensive 9-course specialization covering React.js fundamentals, advanced JavaScript (ES6+), responsive web design, Git version control, and modern UX/UI principles. Gained practical experience through capstone projects.

Education

MVJ College of Engineering, Bengaluru

Bachelor of Engineering in Mechanical Engineering

CGPA: 7.8/10.0

2018 – 2021
